

The position is available at our Lichtenau or Dresden site.

LS telcom AG is the world's leading provider of technologies and consulting services for the efficient use of the radio spectrum in all radio services. In an increasingly digital networked world, we ensure that all spectrum users benefit maximally from radio services. We optimize spectrum management and use in all markets and market segments and enable new business models in vertical markets based on the Internet of Things (IoT).

Senior Technical Product Owner (m/f/d)

Main tasks

- You will be part of a cross-functional team responsible for the full lifecycle of applications within the LS telcom product family based on cloud and microservice-architecture
- You will develop a strong systemic knowledge of LS telcom enterprise solution in order to make informed product decisions
- You will design solutions aligned with our internal standards and long-term product vision
- You will guide and challenge developers on a day-to-day basis, ensuring technical decisions reflect both immediate needs and long-term maintainability
- You will serve as a point of contact for stakeholders, project managers, and other requirement sources – including direct customer input
- You will evaluate new ideas and requirements for feasibility, develop product strategies, drive them through internal review, and oversee their implementation
- In close collaboration with fellow Product Owners and your line manager, you will own release planning as well as the creation, maintenance, and prioritization of the product backlog
- You will work daily alongside our Quality Assurance, DevSecOps, and Production IT teams

Qualification Profile

- You hold a degree in electrical engineering, computer science, or natural sciences – or bring a comparable qualification with a strong IT background
- You bring several years of professional experience as a Product Owner
- You are a fast learner, self-starter capable of strong analytical thinking, with a proven ability to translate complex requirements into clear, actionable documentation for development teams
- You are eager to deeply familiarize yourself with the sophisticated functionalities of the LS telcom software solutions
- You are comfortable working regularly in English, both in written communication and when engaging with our international customers and teams; German language skills would be an advantage
- You are willing to work on-site at our Lichtenau headquarters on a regular, mutually agreed basis

What we offer you

- Varied, demanding and interesting field of activity
- Flexible working hours to reconcile work and private life
- Collegial and highly professional team in a modern, international working environment
- Career opportunities here in Germany or worldwide

We are looking forward to your application!

Even if you do not meet all of the qualifications or tasks listed, we would still be pleased to receive your application.

Please send your completed application documents (curriculum vitae and certificates), including your possible entry date and your salary expectations, by e-mail to Career@LStelcom.com. If possible, please send us only one file with all application attachments as PDF. For a first confidential contact please contact Jana Velten at **07227 9535 704**.
